A BIBLIOGRAPHY OF LITERATURE

RELATED TO

MARYLAND'S FOREST BASE

Maryland Department of State Planning
Maryland Department of Natural Resources - Forest Service

April, 1976

DOF 203-83

U. OF MD. LIBRARY

PREFACE

In commencing to do a comprehensive inventory of forest land resource data in Maryland, it was quickly realized that no single reference source of related publications existed. The objective of this bibliography, then, is to provide a reference listing of literature related directly or indirectly to Maryland's forest resource. It should prove helpful in any planning or management efforts involving Maryland's forest.

Many references are quite old, but in many cases, provide needed historical perspective. Subject areas covered include inventories, economics, management, botanical listings, as well as a geographical treatment varying from county to statewide. Most research literature that would be applicable to Maryland's forests has been omitted due to the sheer numbers involved, much of which is too general in nature.

If additional references are known to the reader, the departments would appreciate receiving complete citations for future revisions of the bibliography.

SUBJECT TITLE INDEX

This listing provides quick reference by nine broad subject headings. Each subject is divided into statewide and county-regional subsections which relate to the geographic scope of the literature. Listings in each subsection are alphabetized by title.

<u>SUBJECT</u>	<u>PAGE</u>
FACTS, DESCRIPTIONS & STATISTICS.....	1
STUDIES, SURVEYS & INVENTORIES.....	4
FOREST LAND USE & PLANNING.....	6
BOTANICAL LISTINGS & DESCRIPTIONS.....	7
FOREST ECONOMICS & MARKETING.....	10
WILDLIFE.....	12
FOREST POLICY, LAW & TAXATION.....	13
FOREST SOILS.....	14
FOREST MANAGEMENT.....	16
